

Task

- Create a signup page with Basic details like First name, Last name, Image, Address etc.
- Image should be populated by using Camera or Gallery.
- Address should be populated using Location Manager.
- After Signup, show an Activity named “Home” which has a Map with Custom Marker (Use the image from Signup form) at current location.
- Hint for the gallery feature would be `Intent.ACTION_GET_CONTENT` or `Intent.ACTION_PICK`

Create Account

This is a reference UI.
